# Interesting Tales Outside of Burswood

It's always interesting to hear about what our work colleagues do in their spare time and sometimes can be very surprising. We have a couple of stories to share with you in this edition of The Buzz and we are always looking for more tales to tell, so please send us your stories for the next edition!

## another day **another world**

Promotional host, Irene Carbone is a lady with nearly as many aliases as Jason Bourne. On the Main Gaming Floor, Irene goes by the name of Jackpot Jeanie and in her own time plays the part of a LuLu – a children's entertainer who has her own music CD, bags of fan mail and some interesting friends including a shark, a lizard and a robot. The LuLus educational children's show entertains young kids at parties and larger events such as the Christmas Pageant through story, song and dance.

It was in Irene's previous job as a drama teacher in youth theatre that she found she had a strong connection with children, with many parents suggesting she would make an excellent female Wiggle. What better inspiration to enter the world of children's

entertainment! Three years on from meeting an investor with the concept of The LuLus Show, Irene now hosts and owns her very own show. But it's not all fun and games, Irene has worked hard on the concept working with song writers, auditioning dancers and liaising with early childhood studies to pull it all together, creating a show where kids love to learn – watch out Wiggles!
